

Health Care Management Company

What does the company do?

Healthcare management company established in 1998 to manage the needs of its healthcare clients more efficiently and effectively. This unique blend of physicians and business professionals creates dynamic management solutions for physicians' practices, hospitals, and communities. This enables great doctors to concentrate solely on their patient's needs. They offer comprehensive services in Revenue Cycle Management, Administration, Finance/Accounting and Information Technology. They also provide consultative services for entity formation and hospital programs, working within a wide spectrum of organizations with diverse needs. Their clients include physician practices, hospital organizations, school systems and government and community organizations.

What does CoreIntegrator do for them?

They have been using CoreIntegrator since spring of 2008. This workflow process helps the customer manage their receiving & scanning of invoices, data processing, and document management in their Accounts Payable department. They utilize both the purchase order and non-purchase order modules of CoreIntegrator. This company was one of the first CoreIntegrator customers to utilize the Analytical Accounting feature within CoreIntegrator.

How do we make their life easier?

Throughout the 9+ years that they have been using CoreIntegrator they have seen drastic improvement in their document processing speed & CoreIntegrator also makes it simple to access documents while working in Dynamics GP. Within CoreIntegrator, the process is flexible enough to allow for expansion as they continue to expand. CoreIntegrator has been a key component to streamlining day-to-day operations and clearing the way for company growth without adding to headcount.
